## [Gantry Crane, Bridge Crane, Jib Crane](#)

### Gantry Crane, Bridge Crane, Jib Crane

Our cranes could be generally classified into three categories: gantry cranes, bridge cranes and jib cranes.

#### Gantry Crane

Our gantry cranes offer the most cost effective lifting portability for handling the considerably wide range of loads. They are successfully applied across many industries.

#### Features

1. Fine welded crane girder is designed according to proven crane geometry structure, resulting in high rigidity.
2. Optimized travel characteristics and ergonomic operating elements.
3. Easy operation, low cost, and safety of load handling

#### Main technical parameters of Gantry Crane

Lifting capacity	Maximum 50 ton
Span	Maximum 35 m
Available types	Fixed, adjustable or customized

#### Additional variations of Gantry Crane

1. Container gantry crane
2. Rubber tire gantry crane
3. A frame gantry crane
4. Semi gantry crane
5. Rolling gantry crane

#### Bridge Crane

Our quality-built bridge crane has high lifting capacity, and could meet all requirements of durability, flexibility and efficiency that are needed in a variety of complex applications

#### Features

1. Dependable and versatile
2. Easy assembly and disassembly
3. We could provide customized cranes to fit all individual requirements.

#### Main technical parameters of Bridge Crane

Lifting capacity	Maximum 50 ton	
Span	Maximum 31.5 m	
Available types	Top running	Under running
	Single girder, double girder	Single girder, double girder

#### Additional variations of Bridge Crane

1. Free standing bridge crane
2. Ceiling mounted bridge crane

#### Jib Crane

Our jib crane is a perfect material handling equipment with maximum space utilization. It has large loading capacities, and able to offer an extensive range of installation options.

#### Features

1. Provide supplemental lifting coverage with a full 360° access.
2. Jib cranes could be freely installed at an extensively large place.
3. Economically move materials around.
4. Multiple lifting devices available

#### Main technical parameters of Jib Crane

Lifting capacity	Maximum 5 ton
Span	Maximum 10 m

#### Additional variations of Jib Crane

1. Free standing jib crane
2. Wall mounted jib crane
3. Mast type jib crane
4. Articulating jib crane
5. Work station jib crane
6. Special application jib crane

---

RONGAN is a professional manufacturer and supplier of gantry crane, bridge crane and jib crane, based in China. With decades experience in material processing and handling equipment, we fully understand how to provide superior quality cranes with more safety features and excellence in performance. In RONGAN, our whole manufacturing processes are designed to give the best quality and satisfaction to our customers.

For more specific information, we welcome you to send us your detailed requirements.
