## [Ceramic Fiber Blanket](#)

### **Ceramic Fiber Blanket**

Our super ceramic fiber blanket features stability, high resistance to high temperature and chemical corrosion. It can be typically used for industrial furnace linings and insulation, filtration, sealing, etc.

#### **Parameters of Ceramic Fiber Blanket**

Classification	Nominal Density (Kg/m <sup>3</sup> )	Thickness (mm)	Dimension (L x W mm <sup>2</sup> )
Ceramic fiber blanket	80 - 130	15 - 50	As per needs

Powered by our technologically know how and our quality production line, we manufacture higher quality products with more excellence and safety features. Our ceramic fiber products consist of ceramic fiber board, ceramic fiber blanket and ceramic fiber paper. Our products cover a large range of density and thickness to meet any individual requirements.

Our thermal insulation products also include rock wool products and glass wool products. Please refer to the individual page for more detailed specification.

For detailed inquiry or consultancy, we welcome you to contact us directly.
