## [Glass Wool Pipe Section](#)

### **Glass Wool Pipe Section**

Preformed glass wool pipe sections are manufactured from fine original glass wool and highly specialized resin. They can be either unfaced or aluminum foil reinforced, and can offer excellent insulation for both hot and cold pipes, flues, exhaust pipes, vessels and plant, etc.

#### **Parameters of Glass Wool Pipe Section**

Classification	Nominal Density (Kg/m <sup>3</sup> )	Thickness (mm)	Diameter (mm)
Glass wool pipe	14 - 48	30 - 100	Φ15 - Φ630

Powered by our technologically know how and our quality production line, we manufacture higher quality products with more excellence and safety features. Our glass wool products consist of glass wool board, glass wool blanket and glass wool pipe section with or without facing or stitching treatments. Our products cover a large range of density and thickness to meet any individual requirements.

Other thermal insulation products also include rock wool products and ceramic fiber products. Please refer to the individual page for more detailed specification.

For detailed inquiry or consultancy, we welcome you to contact us directly.
